CAGE
628B2

Master contract NAICS
541513

Contract ceiling
NTE $20 billion

This Ordering Guide provides federal agencies, approved contractors, and acquisition professionals with the information needed to obtain quotes, place orders, and receive post-award support through Blackwatch International Corporation's NASA SEWP VI contract, 80TECH26D0872, Category C.

Blackwatch International Corporation holds SEWP VI contract 80TECH26D0872, Category C - ITC/AV Mission-Based Services, Small Business. The anticipated period of performance is November 1, 2026 through October 31, 2036, a 10-year ordering period, subject to final NASA modification. Master contract NAICS is 541513. UEI is CSR2PJKFP7H3. CAGE code is 628B2. The contract ceiling is not to exceed $20 billion. Delivery, payment, and the amount of each order are specified on that delivery order.

Scope and fee

SEWP VI covers information technology, communications, and audio-visual (ITC/AV) products and a full set of related services for federal agencies and their approved contractors. NASA describes products as concentrated in Category A and services in Categories B and C. The NAICS code is chosen at the order level, and small-business set-asides may be used at the order level. Authorized order types are Firm Fixed Price, Time and Material, Labor Hour, Fixed Price Award Fee, Fixed Price Incentive Fee, Fixed Price Economic Price Adjustment, and permitted hybrids.

Blackwatch holds Category C under contract 80TECH26D0872 as a small business. The master contract NAICS is 541513 and the CAGE code is 628B2. The ceiling is not to exceed $20 billion. Solicitation 80TECH24R0001. Net payment terms are 30 days unless a delivery order says otherwise.

NASA funds SEWP through a program usage fee. Current SEWP ordering guidance states that fee as 0.34 percent, included in the quoted price. Use the fee printed on the SEWP quote for the order you are placing.

Fair Opportunity

SEWP VI is a multi-award government-wide acquisition contract. Ordering offices give holders a fair opportunity under FAR 16.505(b). The text below is Section A.1.13 of the SEWP VI contract.

A.1.13 Fair Opportunity and Requests for Quotes

Contractors will be provided a fair opportunity at the individual order level as appropriate per FAR Part 16.505(b), including the SEWP RFQ tools. No documentation for the order selection is required to be submitted with the order. All such documentation is to be maintained by the issuing procurement office.

The Contractor shall not market, quote or otherwise offer for sale, any IT Solutions not listed under this contract, until the said solutions are included in the SEWP database of record, and available to all Government end-users.

If the Government issues a Request For Information (RFI) as part of market research, the Contractor may provide items not yet listed on their SEWP contract as part of a market research quote if:

- all such items are clearly marked as not yet available on their SEWP contract; and
- the contractor submits a technology refreshment request to add those products to their contract

If the Government issues a Request for Quote (RFQ) or a Market Research Request (MRR), the Contractor may only respond with items available on their Contract, and the price of each item shall be no greater than the price in the Attachment F SEWP database of record at the time the quote is issued. If the Contractor has insufficient items on their contract to fully respond to the Formal RFQ, the Contractor must respond with a No Bid. Unless the RFQ specifically allows for partial quotes, the Contractor must respond fully to all requirements specified in the RFQ.

When submitting a quote to a government end-user, the contractor must clearly state the length of time the quote is valid. The contractor shall honor any order submitted within the stated time period of a quote.

When responding to an RFI or RFQ issued from the NASA SEWP RFQ on-line quoting system, the Contractor must respond as outlined in Attachment C: Contract Holder User Manual (CHUM).

Contract Holders are prohibited from using Government information posted on the NASA SEWP Contract Holder Only Page, such as RFQs, RFIs, etc., for purposes other than proposing on SEWP requirements. This includes Contract Holders providing third parties with SEWP information and requirements for the purpose of assisting companies, that are not SEWP Contract Holders, with providing unsolicited proposals to meet agency requirements already posted to the NASA SEWP RFQ on-line quoting system.

How to obtain a quote

Use the NASA SEWP quote tools at www.sewp.nasa.gov. That is the recommended way to give holders a fair opportunity and to keep the selection record with the ordering office.

- Submit the requirement in the SEWP quote-request tool so the appropriate holders in the group or set-aside can respond.
- Or email Garth White at garth.white@blackwatchintel.com or Jeffrey Offutt at JOffutt@blackwatchintel.com, or call 703-478-4477. If you do not use the SEWP tools, the contracting officer remains responsible for fair opportunity under FAR 16.505(b).
- Tell Blackwatch what you need, where it must be delivered or performed, when you need it, and how long the quote must remain valid.
- Blackwatch will identify anything that is not yet on the contract, will not exceed the SEWP database price, and will state the quote's validity period on the quote.

Program Manager and Deputy Program Manager

NASA requires named program-management contacts. Use the contract phone number and the addresses below for quotes, warranty, technical support, and problem orders.

- SEWP Program Manager - Garth White - garth.white@blackwatchintel.com - 703-478-4477
- SEWP Deputy Program Manager - Jeffrey Offutt, VP, Contracts - JOffutt@blackwatchintel.com - 703-478-4477
- Headquarters - Blackwatch International Corporation, 1430 Spring Hill Road, Suite 205, McLean, VA 22102

Installation, warranty, and post-delivery support

Installation, basic warranty, extended warranty, technical support, software support, and other post-delivery terms

are the terms written on the SEWP quote, plus the provider's warranty for the items or services ordered. Blackwatch does not shorten a manufacturer's warranty.

Questions after delivery go to Garth White at garth.white@blackwatchintel.com or Jeffrey Offutt at JOffutt@blackwatchintel.com, or call 703-478-4477. Have the quote, delivery order, and SEWP tracking number ready. If the quote names a provider help desk, that desk's process applies in addition to Blackwatch.

How to resolve an order issue

Contact Garth White or Jeffrey Offutt first so Blackwatch can trace the order. Include the SEWP tracking number, the delivery-order number, the quoted items or services, and what went wrong.

- Garth White, Program Manager - garth.white@blackwatchintel.com - 703-478-4477
- Jeffrey Offutt, Deputy Program Manager - JOffutt@blackwatchintel.com - 703-478-4477
- NASA SEWP help desk - help@sewp.nasa.gov - (301) 286-1478 - Monday-Friday, 7:30 a.m. to 6:00 p.m. Eastern
- NASA SEWP orders - sewporders@sewp.nasa.gov - fax (301) 286-0317

Placing an order

After selecting a Blackwatch quote, the ordering agency should submit the Delivery Order in accordance with the current NASA SEWP ordering procedures. All SEWP VI orders must be routed through the SEWP Program Management Office before Blackwatch may process or fulfill the order.

NASA has not yet published the final SEWP VI customer-facing ordering procedures. Until those procedures are issued, follow the current instructions on www.sewp.nasa.gov. This section will be updated when NASA publishes the final procedure.
